CertainTeed 
Quality made certain. Satisfaction guaranteed.™

Your home is
one of a kind.

Presidential Shake will make sure it stands out.

There are certain homes that just call for a shake roof. Is yours one of them? In the past, wood shake roofs typically belonged to only a few styles and regions, but today the possibilities are wide open with Presidential Shake luxury shingles from CertainTeed. The sculpted rustic edges and staggered design all combine to do one thing: give your roof all the charm and beauty of authentic wood shakes.

Here's what distinguishes Presidential Shake:

True originality You're choosing the original, not an imitator. Presidential Shake was the first of its kind, and no other shingle replicates the look of real wood shakes quite so stunningly at a fraction of the cost.

Superior two-piece construction

Composed of two laminated layers of the industry's most durable materials, Presidential Shake exceeds the toughest performance standards. In short, your shingles are built to last and last.

Choices for you Presidential Shake is available in a range of colors to suit your tastes. We even have colors with StreakFighter™ to protect your roof from streaking and discoloration caused by airborne algae (available in select areas).

In the end, we're proud to offer you Presidential Shake as part of a full range of choices in our luxury shingle line—and not just because it represents many of the design innovations we introduced to the industry. But because we know it's going to give your home a look that's hard to match.

A new shake roof.
When was the last time the neighbors were awe-struck?

*Available with StreakFighter protection in select areas

Color Companion Products™

Want it all to match? CertainTeed offers Flintlastic™ SA, a low-slope roofing product that goes perfectly with Presidential Shake shingles. It's available in several colors, giving you the flexibility to coordinate or match areas such as porches, canopies and carports with your main roof.

Roofs are big. Color is important. Choose wisely.

1. **Think big**—View a full-sized shingle, not just a swatch or sample.
2. **Be real**—Look at actual houses where the house/roof color combinations are similar to what you're considering.
3. **Watch the light**—As you look, notice how colors appear under changing light conditions and at various times of day.

Country Gray*

Yosemite

Shown in Yosemite

Integrity Roof System.™ Give your home the best protection.

WinterGuard™

Waterproofing underlayment prevents leaks caused by ice dams and wind-driven rain in vulnerable areas.

Roofers' Select™

High-performance underlayment is a secondary barrier against leaks for the entire roof.

Shingles and Accessories

High-quality shingles are covered by one of the best warranties in the business. Accessory products—starter course, and hip and ridge cap shingles—complete your roof from start to finish.

Ventilation

Proper attic ventilation improves air circulation.

Enjoy the extra confidence of SureStart™ protection

Your Presidential Shake warranty is strong on its own. But, you also get the added confidence of SureStart protection. That simply means if any problem due to a manufacturing defect occurs within the first 10 years, call us. Upon inspection, we'll cover labor and material replacement costs at 100%.

4. **Consider the pitch**—Look for roofs with a similar pitch to your own. A roof's pitch affects the way you see its color.
5. **Ask your contractor**—They might be able to point you to a home where they've installed a roof of your style and color.

Add a little accent to your roof.

For an extra finishing touch, CertainTeed offers an added Presidential Accessory for capping hips and ridges. It comes in several colors, meaning there's one to coordinate with your Presidential Shake shingles.

Easy selection. Long-term protection. And a #1 rating with building and remodeling professionals.

What's behind our #1 rating?

Builders and remodelers across America know certain things to be true of CertainTeed. For starters, we've been in the roofing business for over 100 years, and we have thousands of satisfied homeowners. The process of building that satisfaction begins the moment you turn to us.

CertainTeed offers you the broadest range of color and style choices. But you'll see it's not style over substance. You'll get a roof that's made from the highest quality materials and backed by a strong warranty program. It's our promise to you: quality made certain, satisfaction guaranteed.

Not sure which color to pick? Check out CertainTeed's ColorView.

ColorView is our interactive tool to help you visualize product style and color options. Using it is easy (and even a little fun). Just go to certainteed.com/colorview.

NOTE: REPRODUCTION OF COLORS throughout this publication is as accurate as modern printing will permit. Colors are subject to changes by granule manufacturers.

WARNING: FOR LOW-VOLUME RAIN AND SALT-FOG AREAS
In areas of low-volume rain (defined as insignificant rainfall during 90-day period) and "salt fog," such as parts of the Southern California coastline, copper released by algae-resistant (AR) granules can react with the aluminum in gutters, leading to severe corrosion of the gutters. Therefore, in such regions, it is strongly recommended that aluminum gutters not be used with algae-resistant shingles. Vinyl or copper gutters are recommended.
