

Classic Acoustic Window System

Choose the Harvey Classic Vinyl Acoustic Window System to reduce unwanted traffic noise from aircrafts, trains and automobiles. Not only do these windows help make homes quieter, but they are also ENERGY STAR qualified which means they achieve significant heating and cooling cost savings in the home.

Classic Acoustic double hung windows integrate our top-of-the-line Tru-Channel storm window, Classic vinyl double hung and special glazing for the ultimate in noise reduction.

Harvey Classic Acoustic features include:

- ENERGY STAR qualified
- Custom manufactured to fit existing openings
- Approved for many sound abatement programs in the U.S.
- Designed for residential and light commercial applications
- Top and bottom sash tilt in for easy cleaning
- Available in double hung, casement, rolling and picture windows

Available in: White Bronze Almond Actual colors may vary.

Please note: In order to achieve measurable sound reduction, Harvey Industries strongly recommends replacing all windows in the house. Sound reduction will vary depending on other factors in the home such as acoustical ceilings, wall and attic insulation, etc.
